FINDINGS OF FACT
Zoning Board Calendar # **1728-Z**

224 Gramatan, LLC., seeks to construct a mixed use structure (commercial ground floor with residential above). This property is located at 214 Gramatan Avenue in the NB (Neighborhood Business) zoning district. Block 1102, Lot 3 on the Tax Assessment Map No. 165.54 of the City of Mount Vernon.

Background

1. 224 Gramatan, LLC (hereinafter referred to as “224 Gramatan, LLC” or the “Applicant”), is owner of Lot numbered 3 on Tax Assessment Map No. 165.54 of the City of Mount Vernon. Lot is located at 214 Gramatan Avenue, Block 1102.
2. The applicant seeks to construct a mixed-use structure in the NB (Neighborhood Business) Zoning District. In order to do so, a use variance and certain area variances for the mixed-use structure are required.

Zoning Review

3. The property is located in the NB (Neighborhood Business) zoning district; wherein, the proposed use (mixed use) is not permitted in accordance with Section 267-17 and Section 267-18 of the City’s Zoning Code.
4. The property is located in the NB (Neighborhood Business) zoning district, which requires that:
 - Residential uses are not permitted;
 - 1 for a maximum floor area ratio;
 - 30’ building height in feet;
 - 2 building height in stories;
 - 90% impervious coverage;
 - 60% building coverage;
 - 4,500 square feet lot area;
 - 50’ for lot width and frontage;
 - off-street parking spaces; and

October 3, 2017

5. In the NB (Neighborhood Business) zoning district; the applicant proposes:
- To construct a mixed-use structure in a commercial zone;
 - To create a zoning envelope which allows a F.A.R. of 6.76;
 - To create a zoning envelope which allows 85' building height in feet;
 - To create a zoning envelope which allows 8 stories in building height;
 - To create a zoning envelope which allows a lot area per dwelling unit of 334.4 square feet;
 - To create 36 residential dwelling units;
 - To create a zoning envelope which allows a floor area of 1,050 square feet per dwelling unit;
 - To create a density of approximately 147 dwelling units per acre;
 - To create a zoning envelope which allows a building coverage of 100%;
 - To create a zoning envelope which allows an impervious coverage of 100%;
 - To create a site which deviates by 12 off-street parking spaces;
7. The requested variances above must be based on the use variance criteria pursuant to Mount Vernon City Code § 267.43 and Article 5A, Section 81-3 of New York State General City Law.
8. The requested variances above must be based on the area variances criteria pursuant to Mount Vernon City Code § 267.43 and Article 5A, Section 81-4 of New York State General City Law.

The Application

9. 224 Gramatan, LLC, owner (hereinafter referred to as "224 Gramatan, LLC" or the "Applicant") represented by their attorney Jack Adesso, Esq., filed this application on November 28, 2016. A copy of the application is attached hereto and made a part hereof.
10. The application for the requested variances was in proper form, consistent with the requirements found in § 267.44 of the Mount Vernon Zoning Ordinance.
11. Due notice of a Public Hearing to be held on December 20, 2016 was provided by a mailing to property owners within a 500' radius of the subject site on December 12, 2016 and by publication in the Journal News newspaper on December 9, 2016 and December 10, 2016 and posting a sign on December 9, 2016.

12. Prior to the Public Hearing, the Board Members reviewed the full application package, which included the Plan Examiner's Report, statement of principal points by the Applicant, photographs, environmental assessment form, site plan, survey, radius map, list of property owners within the prescribed radius and notice to property owners.
12. The Zoning Board of Appeals considered the subject application pursuant to the State Environmental Quality Review Act (SEQRA), classified the action as an "unlisted" action under **SEQRA**, and issued a "negative declaration" on September 19, 2017, ending the SEQRA process.
13. The Public Hearing was commenced on December 20, 2016; and continued on the agenda until the matter was concluded September 19, 2017 at 6:30p.m. in the Council Chambers, City Hall, Mount Vernon. A quorum was present consisting of the Chair and Members. Five (5) members of the Zoning Board were present. The Zoning Board secretary received written consents or written objections from the public. The Board read all of the correspondence from City agencies and Boards, which essentially included the following:
 - (a) **Architectural Review Board**: (April 26, 2017) provided the following:
 - That this proposed zoning envelope allows for enough flexibility in design for a project which fits in with the character of the surrounding area.
 - That the proposed zoning envelope may cast a shadow along Gramatan Avenue and the residential structures along North Street.
 - That the ARB foresees potential environmental impacts that may require further environmental investigation.
 - Guidance regarding Part II of the EAF.
 - (b) **Westchester County Planning Board**: (March 27, 2016) provided the following comments and/or inquiries:
 - The City should re-examine and update its zoning code.
 - Supports parking reductions for transit-oriented development.
 - Recycling.
 - Sewage flows.
 - Use of green technology.

October 3, 2017

(c) **Mount Vernon Planning Board**: (May 15, 2017) provided the following comments and/or inquiries:

- The Zoning Board should be the Lead Agency.
- That this area consists of mixed use development along Gramatan Avenue.
- Whether the sewer infrastructure can support such development.
- That a parking and traffic study is conducted.
- That proposed zoning envelope should allow for building height step backs as the building gets taller to prevent a shadow being cast upon the street.
- That the Planning Board foresees potential environmental impacts that may require further environmental investigation.
- Guidance regarding Part II of the EAF.

(d) **Mount Vernon Assessor Office**: (December 23, 2016) provided the following comments and/or inquiries:

- The taxes have not been paid in the amount of \$32,630.06.

(e) **Public Safety**: (December 21, 2016) provided the following comments and/or inquiries:

- No objection at this time.

(f) **Fire**: (January 6, 2017) provided the following comments and/or inquiries:

- No objection to the applicants as long as the New York State Fire and Building Codes and NFPA 13 are followed and all necessary permits are granted. Also a detailed drawing of all fire alarm and fire suppression systems must be submitted.

(g) **Water**: (April 28, 2017) provided the following comments and/or inquiries:

- Demolition, if any, requires water turned off in the street and a backflow device to be installed.

The public was afforded the opportunity to speak in opposition or in favor of the application.

CONCLUSIONS OF LAW

The Zoning Board of Appeals has determined that the Applicant has met the criteria in the City Zoning Code of Mount Vernon § 267.43 to obtain the relief requested for area and use variances.

Use Variance

- a. Whether the owner cannot realize a reason return on the property as zoned: The Board found that a reasonable return could not be realized as provided through competent financial evidence.
- b. Whether the hardship is unique to owner's property and not applicable to a substantial part of the zoning district: The Board found that the hardship is not applicable the whole neighborhood.
- c. Whether the variance alters the essential character of the neighborhood: The Board found that the intensity of the proposed development does not alter the existing and permitted uses in the neighborhood.
- d. Whether the hardship is self-created: The Board found that the hardship is not self-created.

For the foregoing reasons, the Board determined that the use variance (multi-family structure) requested herein comply with Chapter 267 of the Mount Vernon City Code in its entirety.

Area Variances

- a. How substantial is variance in relation to the requirements: The Board found that the variances sought were not substantial.
- b. Adverse effects or impacts on the neighborhood: The Board found that there would be no adverse affect on the neighborhood. The variances requested will further bring the site closer to conformity with the City's long range planning strategy.

October 3, 2017

- c. Substantial change in the character of the neighborhood: After careful review of the facts and circumstances surrounding the matter, the Board found that there would be no substantial change to the neighborhood because the neighborhood is currently multi-family residential. The proposed variances are in character with the other residential structures within the neighborhood.
- d. Ability to address the difficulty via other means: The applicant made a meritorious presentation through qualified expert and lay testimony that these variances were necessary for the accomplishment of the project. The Board assessed other possible solutions and configurations to get the proposal as closer to conformity with the City's Zoning Code, all of which required more than the minimum variance necessary.
- e. Whether the hardship is self-created: No because the shape of the land did not allow for this type of structure based on the existing zoning code.

For the foregoing reasons, the Board determined that certain area variances (Building Height In Feet, Building Height In Stories, Lot Area Per Dwelling Unit, Floor Area Per Dwelling Unit, Number of Dwelling Units, Density, Impervious Coverage, Building Coverage and Number of Off-Street Parking Space) requested herein comply with Chapter 267 of the Mount Vernon City Code in its entirety.

DETERMINATION

Following deliberations conducted September 19, 2017, a motion to grant the use variance relief requested was made by Board Member E. Castillo, seconded by Board Member K. Scully, and carried by the five (5) members of the Zoning Board of Appeals.

Following deliberations conducted September 19, 2017, a motion to grant the area relieves requested was made by Board Member E. Castillo, seconded by Board Member Scully, and carried by the five (5) members of the Zoning Board of Appeals.

Accordingly, it is therefore;

RESOLVED, that the application of 224 Gramatan, LLC , for USE (mixed use) and for certain AREA Variances (F.A.R., Building Height In Feet, Building Height In Stories, Lot Area Per Dwelling Unit, Floor Area Per Dwelling Unit, Number of Dwelling Units, Density, Impervious Coverage, Building Coverage and Number of Off-Street Parking Space) to construct a multifamily residential dwelling at the premises identified at 214 Gramatan Avenue; designated as Block 1102, Lot Numbered 3, on the Tax Assessment Map No. 165.54 of the City of Mount Vernon, New York, is hereby granted with the conditions listed therein.

1. That the applicant adheres to any and all rules and regulations of City Boards, Departments and Agencies, and the County if applicable, involved or affected by this application.
2. That the applicant provides a feasibility study as to whether sewer system improvements are necessary and make any improvements which are warranted.
3. That the applicant provides soil test as it relates to the potential brownfield of the site and remedy any soil in which is found to be contaminated.
